### Biography:

...Your ears get sharp and sensitive to sounds previously unheard. Whailing voices start whispering to you in tongues of abyssic beauty; their whispering reverberates louder and louder within your deranging brains until it becomes one maelstrom of abhorrent droning that makes you writhe in ecstasy. Then one single voice, more powerful and horrific than the others altogether, cuts like a rusty bonesaw through the shell of your skull. You listen devotionally. Now the time is ripe. The well opens its gullet...

And now the mammoth once more has arisen from its frozen thundra to crush, fill and destroy all weak doom; exploring and crossing the boundaries of the heritage once abandoned by the mighty Black Sabbath, offering the most punishing Doom ever: bleak, vast and ultraheavy...  
...bon appetit
